SARSAPARILLA TOMATO AND WILD CHERRY

PHYSICAL BITTERS,

At 50 cents per Bottle.

SARSAPARILLA TOMATO and WILD CHERRY BITTERS are from hopeless cases daily and are extensively supplied by Physicians of this and adjoining towns. Many of the most eminent Physicians in Boston have ordered them in their practice, and have given them the highest testimonials in their favor, and we have no hesitation in saying that they are the most valuable Remedy for Dyspepsia Bilious diseases, Liver Complaint &c, Costiveness, Worms, Piles, Rheumatism, Female Weakness, Nervousness, Loss of Appetite, Nervous Affections, Fevers &c. Sarsaparilla and Tomato is a powerful Alterative and Tonic, and Wild Cherry is a mild Opiate and Expectorant, and by the combination of these two medicines with the Bitters, the most powerful remedy is produced, which will cure any case of Dyspepsia, Bad Humors, Eruptions on the face or body, Costiveness, Worms, Female Complaints, &c, &c, and all those diseases which arise from the abuse of Mercury, or from a vitiated state of the blood, or shattered constitution.

The above Bitters are presented to the public with the utmost confidence in their virtues, and it will be found superior to any preparation of the kind now in use. It is highly recommended among hospitals, and very freely advised in the cure. The dosage which is contained in the bottle, and saving much risk and trouble in taking. Price 50 cents per bottle.

Whig and Courier.

John N. Haywood.—Editor.

MONDAY, JANUARY, 24, 1848.

☞A very pretty pass we are reaching in this country, truly Here is the Iowa Belfast Journal leading to the above the administration of public affairs in France, because there the monarch, though monarchy force, keeps the people in awe, and restrains the press, and puts the padlock to the lip, against any protests against war.

The Journal calls for "union and punishment in this country, for those who utter their protests against this unnecessary and iniquitous war by which our government is attempting to subjugate a weak, neighboring republic It may be well enough to state, in the estimation of the Journal, that all is a monarchy they manage this matter better than in a free republic The Journal would be for a great love for war as in peaceful Monarchy, to a republic If so, let them go where they can be suited, instead of laboring to introduce the principles of a monarchy among the people of the Free States of North America

This very right of free speech—this very right of the people knowing what their public servants are doing, and why they are doing it —this very right of each man uttering his protest against gigantic iniquity on the part of those servants—this very right of the people making the issues upon which the government of the nation shall be administered—this very right of the people to frown indignantly upon the wrong doing of their agents—each and all of these rights are a part and parcel of the political inheritance of the free people of the United States Talk of *punishment*, for the citizen, or his representative, for exercising any or all of these rights! It is an audacity and contempt which should meet the hot rebuke of every freeman

The exercise of these rights forms a part of the experiment of our system of government, and if the prosecution of a foreign war of conquest is incompatible with the free honest exercise of them, then let the war be abandoned—let all plans projects and measures be abandoned which cannot stand fairly with the free exercise of these rights—and let the experiment, as it was begun be carried out; rather than yield the rights so precious and important, for the mere, miserable experiment of crushing a weak, distracted, half-civilized people, who, though feebly and unsuccessfully are laboring to maintain a republican form of government.

We have faith in the capability of our people living in peace and quietness, and securing to themselves prosperity, honor, and happiness in maintaining the great fundamental ideas of freedom which our political fathers loved and taught: and will oppose the dungeon and the sum who advance it, that for the success of the enterprises of foreign conquest, the rights and liberties of the people must be limited.

The doctrine which the Belfast Journal has broached is in the true spirit of the present phase of hocofocoism, and demands the sober consideration of the people The loco press have endeavored to shut the mouths of American citizens by denouncing all of us as traitors who protested against the prosecution of the war. They have endeavored to establish a public sentiment which should place the brand of infamy on every man who would not give his assent to the justice and propriety of the war, and its management and objects. But they have failed in this—and now the Belfast Journal asks for 'punishment' to be inflicted. Truly, indeed,

Concert.

The Bangor Musical Association will give a public concert at the Union Street Church this evening This association embraces the musical talent of our city and has for its object the general cultivation here, of music and of musical taste.

Should the concert this evening be well sustained by our citizens, the association will make arrangements for bringing out, by and by, in great force the sublime Oratorio of David, and other musical compositions of the highest character It is no small tax upon the members of this association to keep up their meetings for exercise and study, and as all are interested in having the musical art sustained here, it seems but reasonable that the public should give them a hearty greeting at the concert this evening and enable them to purchase new music and do something in the way of establishing a musical library.

Aside however from the general considerations of the duty of the public respecting this concert, we can assure our readers of a good entertainment: The music will be of a miscellaneous character embracing Solos, Duetts, Quartetts, Songs, Choruses so that all tastes can be gratified.

☞The editor of the New York Tribune now on a visit to Washington gives it decisively as his opinion that Gen Taylor can not and will not be the Whig candidate for President without a very material change in the attitude he maintains before the country.

He further states that the sentiment is increasing at Washington that Mr Clay is, in fact, a more available candidate even, than Gen Taylor or any other man; and that, he is, to day, the strongest man in the country and can be elected President if he will consent to be a candidate.

☞The sum of thirty lacs of rupees, or £300,000, is to be expended yearly for the next four years, in completing the Ganges Canal. This work will open one of the finest and most fertile regions of India to European intercourse and irrigation.

☞A letter from a volunteer, published in the Salem Advertiser, states that part of the Massachusetts regiment who were imprisoned at Vera Cruz for refusing to take the uniform provided for them, were forced to put it on at the point of the bayonet, and harmony was once more restored to our ranks

The Richmond Whig says, the Whig papers and county conventions of that State generally have declared in favor of a national Whig convention to nominate a President and Vice President.

For the Whig and Courier.

Mr Editor:—

The accompanying extracts of a letter, under date, "York Cribs, Dec 24" from an intelligent officer in the service of the U S., to a friend in Maine, present confirmatory of a late remark of Mr. Calhoun in his great Senatorial speech on the Mexican War He says:—

"If the vigorous prosecution of the war, even in the direction which the Executive conceives it well take, should fail, and the chances of its failure are many, there will be no retreating — Every argument, against calling back the army, as they designate it, against making a defensive line which we now advanced, will have double force after you have spent sixty millions of dollars and have acquired possession of the whole of Mexico The interests in favor of keeping on there will be much more influential than now The army itself will be larger Those who live by the war—a large and powerful body —the numerous contractors, the cutlers, the merchants and all engaged every way, directly or indirectly in the progress of the war, and absorbing the whole expenditures, will be all adverse to returning and will swell the cry in favor of continuing and extending conquest."

A case in point, mentioned in the letter referred to, will show how "things are managed," in the language of the Southern Statesmen, by "those who live by the war," and whose *interest* influence them in favor of its continuance. It is as follows:

"To give you an idea how some, than ours are managed here, I will make a statement of the expenses that our government is subjected to in the delivery of a cargo of coal.

The brig Frances Lord, was freighted to Vera Cruz with about 300 tons of coal, for which she was to receive at the rate of $7,50 per ton, and after the expiration of the usual lay day, $40 per day demurrage; and this sum she has now been receiving for upwards of *five months*. The original cost of the coal was about $3 per ton.

Hire, it is for the gift,	$2,250 00
Demurrage,	6,000 00
Cost of coal in Baltimore,	900 00
At Vera Cruz,	9,150 00

The brig in her present condition would not sell in any port of the U States, for more than 7 or $8,000; and this is only an ordinary case —many similar transactions are of daily occurrence. Some of the vessels that brought coal to that place, after lying long enough to pay for themselves with demurrage have been paid $6 per ton to take it to Panama, where, with perfect safety, it might have been landed here. The coal that is now going on board of one of our U. S. Steamers, has cost upwards of $30 per ton Such proceedings are abominable; but such is the principle I conclude from what I have seen, upon which most of the government business is here conducted.

No wonder then that the voice of so many persons among you is *still for war*."

To the Editor of the Whig and Courier

The following results has been sent to several cultivators of fruits and those who have bestowed much attention to the subject residing in the belt of country North of latitude 45°.

Several answers have been received If you think they would benefit any of your readers, such of them are at your service as the writers have consented to their publication They show what is of importance to us, the varieties of fruits which may *safely* be cultivated in the northern region.

Fruits for the South.

If "time is money" it may be said that economy in the use of means is money. Endeavoring to practice upon this principle. I have for several years been at considerable pains to introduce to the people in this part of the State of Maine the choicest varieties of such fruits as facts and experience have indicated to be best suited to our soil and climate Knowing that much still remains to be done, I would avail myself of such additional experience as those engaged in cultivating fruit can furnish me My object is now to ascertain what fruits are best adapted to the soil and climate of not only Maine but those of New Hampshire Vermont, northern part of New York, also that portion of the British Dominions which are North of latitude 45°.

If you were restricted in only 3 apple trees, what varieties would you select for your location?

If restricted to 6 trees what varieties?

If restricted to 12 trees what varieties?

Pear trees the same questions throughout.

Plumtrees, " " " "

Cherry trees " " " "

Gooseberry plants " " " "

Have you cultivated successfully with success any one or more varieties of the Peach, Quince, Grape or other valuable fruits not here enumerated that will stand the rigors of our climate? If so, please name them and the varieties.

Do you cultivate the White Dutch Currant, Myatt's Victoria, Downing's Colossal and Wilmot's Early Red Rhubarb? If so, what is your estimate of them?

What 3 varieties of Strawberries do you consider best adapted to our climate?

Are you willing to have your written reply to this circular published?

Your wishes will be duly respected.

Please return to me at early answer and give reasons for your preferences and as far as possible giving the results of your experience "speaking what you do know and testifying what you have seen."

Respectfully Yours,

HENRY LITTLE.

For the Whig & Courier.

Rev Prof. Shepard commenced a series of discourses Sunday week at Market Hall on the Bible—to be continued on successive afternoons.

It was one of the Professor's strong sermons —argumentative, clear, and convincing It was impossible that any reasonable man, with an honest mind, could have followed his argument, and gone from the Hall to sleep up religion to the Bible.

The great antiquity that is claimed for the early scriptures; was clearly established, as well as the evidences of their genuineness.

The portion of the discourse treating of the harmony and validity of the scriptures as a whole, was truly beautiful and eloquent The speaker stated that about *fifteen* hundred manuscripts of the sacred scriptures had been discovered, and although found in different countries, and written in different languages, and by men of varying tastes, and of unequal degrees of intellect—yet their harmony was wonderful—they substantially agreed. Their differences were just enough to show that there could have been no collusion Some of his hearers were disappointed, but some of the points were touched as lightly For instance, he said the early scriptures were in strict harmony with science. There are those who assert that some of the statements of the early scriptures are as *discordant* with the facts developed by science, that a new principle of interpretation must be established, or the task of mankind in the scriptures will be vastly weakened, if not destroyed There were doubtless many hearers of the discourse who would not be able to meet such an objection to the Bible, and it would have been more satisfactory to them, had the speaker enlarged more on this interesting topic

The Hall was tolerably well filled, and it was pleasing to notice how large a portion of the audience was composed of young men, Such a manifestation of the word—could not fail to sharpen their intellects—if it did not mend their hearts

The Professor was too modest a man to announce beforehand a "course of sermons"—had he done so, the spacious Hall undoubtedly would have been full to overflowing.

EDUCATION.

The American Review, January, 1848.

We have received the January number of this able and valuable work It appears in an enlarged form and with improvements which were projected by its founder, the late George H. Colton, Esq whose sudden death but a few weeks since caused so many hearts to be sad. The personal and intimate friend of Mr Colton and his associate laborer in the Review, Mr. James D. Whelpley, will now devote himself to conducting it. Hon. D. D. Barnard, and the other contributors to the work will be retained and the plans of Mr Colton will be fully carried out so that though dead, his influence will long be felt.

This number of the Review is embellished with a beautiful portrait of Thomas Chalmers!

The following is the table of contents.

Prospectus for the new series,

The President's Message;

The War, by Mr Barnard;

Mr. Calhoun's Report on the Memphis Memorial,

The Anglo Saxon Race;

Ad loquitur by the late George H. Colton;

The Natural History of Paraguay, by E. H. Hopkins,

Hope;

The Prose Writings of Andre Chenier;

The Life and Character of Frederick William IV, King of Prussia;

Habitat

Foreign Miscellany;

Critical Notices.

We can cheerfully, and we should earnestly urge upon the Whigs of our city and State, to encourage this work by their money and their pens, assuring them that its sterling excellence now well deserves the first, and the work is worthy of the best results of the latter.

THE OLD GREAT COAT.

Written for a friend.

BY A. M——E.

Ah! Old Great Coat, thou art at length departing,
True, faithful servant of full many a year.
How shall I now thy kindly warmth, when smiting
Forth, 'Mid the storms of winter dark and drear.

Long is the time that thou and I together.
Have journey'd through the storms and calms of life.
Companions *always* in cold, stormy weather.
Unawed by all the eloquent strife.

Old Coat thou 'mindest me of days long departed.
Of loves, whose forms I never more may see!
Two loved and lost, the meek and gentle hearted,
Who haunt the chambers dim, of memory.

I cannot see thee, in thy faded glory,
And see thee only—other forms arise—
Alas! how sad and changed is the story
My heart records, when thou dost meet mine eyes.

Farewell Old Coat, if thou indeed must leave me,
Worn friend of oftheir unforgotten years
Fate will the loss most bitterly dost grieve me,
I'd weep for thee, but MEN are MADE TO WEAR.

Pittsburg Printers' Festival.

Neville B. Craig presided at this sumptuous entertainment on the 24th ult inst. Among the toasts were:

"*Our Country, Right or Wrong.*—We will stand by her when right; when wrong, we will try to set right her."

Rothschilds in America.

The Journal de Havre states that the Rothschilds have decided upon the establishment of a house in the United States. It does not add whether New York or Boston is to be the chosen city.

We learn that Mr Bonbodier of this city, lost a span of horses by the breaking of the ice on Cassenacook Lake, a few days since, and came very near losing his own life He was hauling supplies for lumbermen, which supplies were lost in the lake together with his horses and sled.—Mercury

An African Republic.

The last African Repository contains the Declaration of Independence and the Constitution of the people of Liberia. These are documents which would do credit to any age or country. None of the old nations of Europe have established on terms of government to be compared advantageously with that of these debutts, most of whom have been slaves. Why is it unreasonable to expect that this colony, now established, may prove to a powerful christian Republic, whose influence shall be felt throughout Africa, and throughout the world, especially among the black and tawny race of Africa.—Ken. An Intermarriageable Man.

E. D. Parker esq. Commonwealth's Attorney for this county, has returned to the Secretary of State his annual report for the last year, giving the details of every case in which he has been engaged. They amount to 1222, of which number 1000 were in the Municipal Court, 33 in the Supreme Judicial Court, and one in the Court of Common Pleas

THE LATEST FROM MEXICO!

A FAINT GLIMMERING OF PEACE.

DESPATCHES FORWARDED TO WASHINGTON.

RETORATION OF AMERICAN PRISONERS.

ANOTHER SKIRMISH WITH THE MEXICANS.

SANTA ANNA GONE TO SAN LUIS.

LOSS OF THE BRIG RUPERT, &c.

PHILADELPHIA, Jan. 20,

The greatest express from New Orleans, has reached here with papers of the 14th, from that city.

The most important intelligence is, that there were indications, but current rumors of secret negotiations being in progress, which promised to result in a treaty of peace.

Despatches were received at Vera Cruz, on the night of the 31st, by the arrival of a courier from Mr Doyle the British Charge. They were immediately forwarded to New Orleans in the British brig-of-war Daring

Nothing positive was known concerning the contents of these despatches; but it is supposed they related to negotiations for peace, from sending them in a vessel of war instead of waiting for a steamer.

Col Mills, with 2500 men, left Vera Cruz for the capital. Gen Marshall was awaiting the arrival of this train at Jalapa.

On the 29th, Lt Reynolds, attached to company D, of the 8th Regiment of Infantry, was hung at Jalapa, for the murder of some Mexican women.

It is reported in the Mexican papers that Santa Anna has embarked at Acapulco, for the port of San Blas

A letter from Queretaro states that the government was doing all in its power to get the new members of Congress together, and it was believed the body would assemble about the middle of Jan.

Advices had been received from Matamoras to the 30th ult The guerillas, under Migares, had made an attack upon the town, but were completely routed, and Migares and many other Mexicans killed.

An expedition was despatched on the night of the 21st against Cholula, to apprehend some Mexican officers. A skirmish took place—three Mexicans were killed and three wounded

A number of American prisoners who had been taken at various times by the Mexicans, had been sent to Col. Childs from Zacatlan by Ituzzia, the former Mexican Governor of Puebla, asking an exchange for Col. Falvo.

If not admissible, an equal number of Mexicans was requested, and if neither proposition should be accepted, they might be considered voluntarily released. Colonel Childs replied that he could not comply with either proposition, and that the Mexicans were indebted for a great number of prisoners during the war. He returned sincere thanks for the kindness shown to the prisoners now voluntarily released and would with pleasure emulate the enemy's kindness towards all Mexicans who might become prisoners

Brig Rupert, bound from Tampico for Pensacola with lumber for government, was totally lost on the 1st, at Tampico bar.

Rumors at Washington.

The charges preferred against Gen Scott have been considered by the President and he has ordered a court of inquiry to be held at Perote. Gen Towson under his Brevet rank in the army, will preside

Gen Butler will take the command of the forces

Gen Worth is not relieved from arrest.

Both branches of the Legislature of Kentucky have nominated Gen Taylor for the Presidency, and it is further rumored that Mr Clay will withdraw his name as a candidate.

NEWS FROM THE SOUTH.

New York, Jan. 21.
9 o'clock, A M.

The British ship India has arrived to-day after a voyage of 57 days from Liverpool The Captain and thirty-nine passengers died of ship fever on the voyage.

[The Captain's name, at his sailing, was given as "Thompson." The despatch gave no name.]

CONGRESS.

Washington, Jan 19 1848

In the Senate, a common saloon was laid on the table from the Treasury Department to correct an error in the Report of the Secretary of the Treasury caused by mistake of the clerk

The Ten Regiment Bill was then taken up.

Mr Foote addressed the Senate in support of the war.

In the House the various committees were called upon for reports Among others

Mr Burt, from the Military Committee, reported a bill to increase the efficiency of the regular corps of the army and to provide for disabled soldiers. Also, a bill to found a Military Asylum for invalid soldiers of the army.

Mr Farrelly from the Committee on Patents reported a bill to amend various acts providing for the promotion of useful arts.

Mr Vinton, from the committee of Ways and Means, reported a bill providing for a loan not exceeding eighteen millions.

On motion of Mr Brodhead, the House went into committee of the Whole on the President's message

Mr Tuck addressed the committee, chiefly on slavery. [Left speaking.]

Jan. 20.

In the Senate, the Vice President communicated a report from the Commissioner of Pensions of the persons who have applied for the benefits of the Navy Hospital Fund.

Mr Berrien submitted a resolution calling upon the President for reports and other communications as to the line proper to be occupied by our troops, referred to in his letter to the Secretary of War.

Mr Cameron moved its amendment so as to embrace the reports from any other officers on the same subject.

Mr Berrien accepted the amendment, and the resolution was then laid over.

Mr Dickinson submitted a resolution to restore Jesse E. Dow, once expelled, to the seat he formerly occupied among the reporters.

Mr Douglass introduced a bill granting to the State of Illinois the right of way through the public lands, for the purpose of constructing a railroad to the Northern lakes.

Mr Atherton introduced a bill to modify the Sub-Treasury system

Mr Jefferson Davis, from the Military Committee, reported a bill to increase the efficiency of the army, by the establishment of a retired list for disabled officers.

Mr Niles, from the Post Office Committee reported a bill relative to the transposition of the mail from foreign countries.

The Senate then proceeded to consider the resolutions submitted yesterday by Mr. Mangum, calling for the instructions under which Gen Scott's order, No 395, was issued, and also his opinion as to the efficiency of his power to carry the same into effect. The resolutions led to a sharp debate between Messrs Mangum, Cass, Crittenden, and Allen.

The resolution was modified by Mr. Mangum so as to leave it discretionary with the President to omit any disclosure which, on his opinion, would be detrimental to the public interests, and so thus form it was agreed to.

The Senate then proceeded to the consideration of the Ten Regiment bill. Mr Foote resumed his remarks.

Adjourned

The Senate tomorrow will probably do nothing but adjourn over to Monday.

Mr Clarke has the floor.

House—After reading the Journal, Mr. Brodhead rose at half past 12 o'clock, and announced the death of Mr. Shunk, a member of the House at Allentown, Penn, on the 16th inst.

Mr B. gave a short account of the character and talents of the deceased, when the customary resolutions were passed and the House adjourned.

The editor of the Providence Transcript has an unlearned lady correspondent, who calls a kiss "heart's dew"—whereupon the editor gallantly declares that her "heart dew," is quite as intoxicating as "mountain dew." It is to be inferred, from the evidence, that the parties have been comparing notes and *bills* upon the subject.

Smoking.

An old proverb—

> "Tobacco is the vilest weed,
> That mortals ever knew,
> The very Devil sow'd the seed
> That in his hope might chew!
> And put the law too many men have broke,
> For they not only chew, but like a cowpit smoke!

Pain in the Head are Breast, Headache, &c.—Wright's Indian Vegetable Pills are a certain cure in every description of pains; because they purge from the body those morbid humors which are the cause not only of the above disagreeable complaints, but of every malady incident to man Pains three to six of said Indian Vegetable Pills, taken at night on going to bed, will in a short time give relief, even to the most intense suffering; and perseverance, according to directions, will certainly restore the body to a sound state of health.

Wright's Indian Vegetable Pills also aid and improve digestion, and therefore give health and vigor to the whole frame, as well as drive disease of every description from the body.

Beware of Counterfeits of all Kinds! Some are coated with sugar; others are made to resemble in outward appearance the original medicine The safest course is, to purchase from the regular agents only, one or more of whom may be found in every village and town in the State.

Winter's Balsam of Wild Cherry.

We have not unfrequently called attention to this article in the columns of our paper, and we have done so with the full confidence that it was a good one, and deserving the patronage of the public. We have had a chance to witness its effects upon some of our friends, which in addition to the high encomiums passed upon by our brethren of the press, and to paid puffs, but in honest cases of statements, from having derived a benefit themselves, makes us desirous of advising all those who have occasion to resort to a remedy for pulmonary affections, to avail themselves of it. We have the most confidence in Mr Fowle, the proprietor, to believe that he would not lie, or say other medicines upon the community, unless he had full faith in its efficacy—in confirmation of which the proprietor offers a mass of testimony from the most respectable sources, Neither would we be understood as saying that this will cure consumption after it is seated, although it seldom fails to relieve the worst cases—but at this season of the year almost every body is liable to a cold, which if neglected, will lead to fatal results—by taking this medicine we doubt not many lives may be saved.—New Eng Washingtonian, Boston, Jany 2, 1847.

DISEASES OF THE Throat and Lungs.

COUGHS and Colds, the fruitful parents of Consumption, Bronchitis, Asthma, Pleurisy, and many other dangerous diseases, are too often neglected until the foundation of the Specific Complaint is laid deep in the System. A Physician is then called in, who administers a few Palliatives, but declares the disease incurable, and the Patient in confirmation of his opinion, dies. But why does he die? Simply because he does not resort to the proper remedy, but trusts the more to the skill of a Practitioner rather than the infallible evidence of experience and the most authentic testimony. On this basis is the only true one, the efficacy of

DR. VONDERSMITH'S

INDIAN COUGH BALM *and Lung Balsam*,

have been thoroughly established. Let those who doubt, read the following testimonials which are merely samples of hundreds of the same nature.

CONSUMPTION

AND AFFECTION OF THE LIVER,

CURED

Of Twenty Year's Standing!

CITY OF NEW YORK July 21st, 1847.

This is to Certify that I, Nelson Larrabee, of Jersey City, have been subject in a dry hacking cough and a pain in the side and chest, attended with night sweats and general weakness of the system for a period of twenty years, and pronounced INCURABLY CONSUMPTIVE, under the advice of regular physicians and the many advertised remedies I have taken have been of no permanent benefit, and I was yielding hopelessly to the progress of the disease, when I was persuaded to try Dr. E. W. VONDERSMITH'S INDIAN COUGH BALM AND LUNG BALSAM, by the aid of which, all my symptoms have been removed, and I have been wonderfully restored to the blessings of health, and the prospect of a prolonged existence.

In gratitude for which, and in the hope of benefiting others, I solemnly testify to the facts in this certificate. NELSON LARRABEE.

Jersey City.

INFLAMMATION OF THE LUNGS

New York, June 19 1847

DR. VONDERSMITH—I have been subject to a cough, pain in the chest, difficulty of breathing, &c., for many years past. About four months ago I took a severe cold which settled on my lungs. I was unable to attend to my business during the day. I had but little rest that I thought I could not possibly survive unless I could get relief. The excessive night sweats had reduced my whole body to a skeleton. I expectorated white frothy mucous, in fact, should I give the full particulars of my case, it would be almost incredible. I was recommended to try Dr VONDERSMITH'S INDIAN COUGH BALM AND LUNG BALSAM. I commenced, when I had used about one week, my cough decreased considerable, which gave me great hopes. I continued with the medicine according to directions, and the result has been that I am restored to health, a blessing that I have not enjoyed for years, until the present time. I sincerely believe had I not made use of Dr. V's invaluable Medicine, that I would be mouldering in the silent grave Therefore I believe that I am doing neither but justice, in stating the above facts, so that you may show it to all the afflicted who may call upon you to administer to them. I shall be pleased at any time to converse with the afflicted who may call upon me.

Your grateful patient and friend,

CONSUMPTION.

STATEN ISLAND, June 16th, 1847.

DEAR SIR—I take great pleasure in giving you my certificate that December I was attacked with a severe cough, pain in my left side, loss of appetite, and continual raising of white and yellow mucous. Some days I raised a half pint of mucous, streaked with blood. I have been under the treatment of a dozen physicians, was recommended by Dr. Mighel of Philadelphia, to use a breathing tube; I purchased one; I only made use of it for one week; it was the cause of bringing on hemorrhage of the lungs, which reduced me so much that I was unable to get up, my voice was entirely gone; at times it was difficult for persons to understand me. I saw Dr. Vonderwith's Medicine recommended very strong by a person whom he had cured. I sent for half a dozen bottles, I received great benefit from the use which induced me to purchase a dozen bottles, I took according to the directions, and it cured me perfectly. I send. Yours, &c., ROBERT WILBEY.

Timber Land for sale.

ABOUT 2500 acres of Timber Land, situated in Township No 3, 3d Range, west from the east line of the State, the same being six undivided third of the north ½ part of said township. The east and west branches of the Mattawamkeag River pass entirely through the tract making the distance to haul timber comparatively small
The facilities for getting the lumber to market are unsurpassed, and the expense of driving, small; there being those who are always ready to contract to drive logs from the township for from 25 to 37½ cents per thousand feet.
The above property belongs to the estate of a gentleman recently deceased, and payment will be required in cash, or that which will command the same upon the execution of the deed.
Should a partition be desired by the purchaser, commissioners for that purpose could probably be appointed by consent of parties.
The land will be sold with or without the interest in the present winter operations.

Important to Parents.

WINER'S
CANADIAN VERMIFUGE!

A CERTAIN REMEDY FOR WORMS

THIS remedy is one of the most certain and at the same time easily administered vermifuges that has ever been offered to the public. The Generality of Diseases among children are to be attributed to Worms. They have been known to cause convulsions and the most violent symptoms, were parents to give them not the least suspicion are carefully of the same, when a dose of this valuable vermifuge would in many instances prevent the existence of worms. Now is the time of spring children would be healthy if they would take a dose of this valuable vermifuge. Now is the time of spring children would be healthy if they would take a dose of this valuable vermifuge. Some of the symptoms of worms are as follows: the countenance is at one time of a bloated color, and suffused with a sickly hue, at others the eyes are watery and dull; the child is restless during the night, and sleeps with the mouth open; the breath is offensive, the gums swell and sometimes ulcerate, the abdomen is tumid, hard and painful, attended with occasional griping pains, and frequently with a voracious appetite, at others the appetite is irregular, the stools are sometimes natural, sometimes slimy, and frequently mixed with blood, the urine is voided frequently, and sometimes with pain, the child is sometimes affected with a cough, which is frequently mistaken for consumption, and many other symptoms which it is unnecessary to mention, as the above are sufficient to show the necessity of administering a vermifuge.

Why is Canadian Vermifuge the most effectual remedy for worms that has ever been offered to the public? Because it is a combination of the most powerful vegetable vermifuges known, and is the most pleasant to take of any vermifuge ever offered to the public. Because it is a certain remedy for worms, and may be safely administered to the most delicate infant with perfect safety. Because it is a mild purgative, and will not require the use of any other medicine to operate with it. Because it is the most valuable remedy for worms ever offered to the public.
